About.....

You are most Parangat Council of Skill Development Technology. At Parangat Council of Skill Development Technology, our aim is to provide the best caring environment for every child. We provide the best learning environment where everyone is happy, safe and secure. Here, every child is guided and encouraged by our trained professional staffs to develop their full potential in every field of education. With emphasis on laughter at every step while educating for a brighter future, we have a habit of developing future leaders. We work on the overall development of a young mind in the right environment to work wonders for years to come.

Mission

To be the single source for quality assurance in computer education among the nation's non-formal institutes, After turning out competent IT professionals in large numbers, PCSDT reach is now being extended to all regions of the country as well as overseas.

Vision

To be the leader in the development of industry oriented quality education and training and be the country's premier Institution for examination and certification in the field of Information, Electronics and Communications Technology (PCSDT).

Message from the Desk of Director

The education system in this country is undergoing a paradigm shift to improve upon the employability factor. With the launch of the 'Digital India' initiative by the Government of India, skill development and capacity building has assumed greater significance. This campaign is based on three fundamental pillars – to create digital architecture as a utility for citizens of India............

PCSDT Vocational /Training

The beautician course teaches students how to use cosmetics for the skin, eyes, cheeks, and lips as corrective applications and how to operate as makeup artists. For models who feature in fashion-related photography, students practice and study how to apply makeup for a typical day or a special occasion.

Graphics Design

Graphics Design

Graphic design is a craft where professionals create visual content to communicate messages. By applying visual hierarchy and page layout techniques, designers use typography and pictures to meet users' specific needs and focus on the logic of displaying elements in interactive designs to optimize the user experience.

Computer Hardware

Computer hardware is a collective term used to describe any of the physical components of an analog or digital computer. The term hardware distinguishes the tangible aspects of a computing device from software, which consists of written, machine-readable instructions or programs that tell physical components what to do and when to execute the instructions.

IT Skills

Information technology (IT) professionals perform various tasks using computer-based information systems. Those who work in this industry typically use a diverse skill set to perform their daily tasks. Regardless of your background and experience in this field, knowing which IT skills you can work on to improve your performance may help you advance your career.
